Circuit Protection Portfolio

1489-M Circuit Breakers

Approved for branch circuit protection in the United States and Canada, and certified as Miniature Circuit Breakers for IEC applications.

1492-SP Supplementary Protectors

Overcurrent protection for equipment where branch circuit protection is already provided, or is not required. Also Miniature Circuit Breakers as defined by IEC Standards.

1492-D Circuit Breakers

Overcurrent and short circuit protection for higher voltage DC circuits. Also Miniature Circuit Breakers as defined by IEC Standards.

188-J 10 kA Regional Circuit Breakers

Protective devices applied at the equipment level. Regional certifications only. Available for purchase in China and Europe.

188-K 6 kA Regional Circuit Breakers

Protective devices applied at the equipment level. Regional certifications only. Available for purchase in China and Europe.

Rockwell Automation offers a wide range of Allen-Bradley circuit protection products designed for a variety of applications.

Miniature Circuit Breakers, Supplementary Protectors, and Residual Current Devices

**1492-RCD
Residual Current
Devices**

By detecting small leakage currents and disconnecting all ungrounded connectors quickly, RCDs can prevent injury to exposed personnel and damage to equipment.

**1692 Electronic
Circuit Protectors**

Protection for secondary circuits of 24V DC switched mode power supplies. These modules monitor both supply voltage and load currents, and can be monitored and controlled locally and remotely.

**1492-MC Circuit
Breakers and Ground
Fault Protectors**

Thermal magnetic circuit protection and sensing thresholds for personnel and equipment protection.

**1492-GH, -GS High-density
Supplementary
Protectors**

Thermal magnetic circuit breakers with a high density design useful when DIN Rail space is a premium.

1492-FB Fuse Holders

Designed for use in many OEM applications. Provides safe and convenient installation of Midget, Class CC, and Class J fuses.

- Test equipment
- Automotive systems
- Controller I/O points
- Power supplies

- Relay and contractor coils
- Medical equipment
- Control instrumentation

- Computers
- Solenoids
- Transformers
